AMENDMENT TO NASBUG MONITOR PROGRAMME

As from July 10th 1978 all MM2708 EPROMs being supplied with NASCOM 1 kits contain a modified monitor programme - "NASBUG 1.T2"

The following modifications should be made to the NASCOM 1 Software Notes.

Page No

Details

"PART 17, SECTION C: NASBUG MONITOR LISTING"

60

Delete: Lines 0042 and 0048

Insert: Two Lines as follows:-

0042 DB 02 17 30 F7 IN A, (02); RLA; JRNC - 07;

0047 DB 01 C9 IN A, (01); RET

(This change to 5 bytes vastly reduces the cassette load error rate).

62

Delete: Contents of locations 0109 (B1)
and 010B (B9)

Insert: A9 at location 0109 and
A1 at location 010B.

(These two changes in the keyboard look-up table relocate the left and right handed prompt symbols as shifted comma and full stop respectively).

77

Delete: Left and right prompt symbols over keys M & N

Insert: Left and right prompt symbols over the comma and full stop keys respectively.
